Declaration of Product Shelf Life for Monolithic Power Systems, Inc. – Information Only

To Whom It May Concern:

As part of its ongoing continuous improvement practices, Monolithic Power Systems, Inc. is pleased to declare that its analog IC devices have a shelf life of two (2) years based on production date code. Please see our Standard Terms and Conditions for information about our product warranty.

Should you have any questions regarding this declaration, please contact your local Sales Representative.

A handwritten signature in black ink, appearing to read 'H. Zhao', is positioned above the printed name.

Henry Zhao MBA, Ph.D.

Sr. Director, Quality Assurance and Reliability
